Subject: Windsor Protest Deployment Update 20220215 at 1130hrs
Date: February 15, 2022 11:54:00 AM

Good Day Everyone:

Below update for your awareness on this deployment.

Final Shifts:

- Our last night shift will be Wednesday, Feb. 16, 2022 commencing at 1800 and ending Thursday, Feb 17 at 0600. Requirement is that you be at the staging point for muster, equipment/assignments at 1730 as currently arranged.
- Our last day shift will be Thursday, Feb 17, 2022 commencing at 0600 and ending the same date at 1800. Requirement is that you be at the staging point for muster, equipment/assignments at 0530 as currently arranged.
- At the completion of your shift (ie: return to the hotel) you are to take an appropriate rest period prior to departing home. **There is no expectation that you return immediately after your shift for health and safety reasons.**

Expenses/EDP:

Operational Readiness: Your OR status will end when you get back to your hotel after the end of your scheduled shift.

A new cost centre/IO and PROS occurrence has been identified for the Windsor deployment. Details below:

Collator: 03535
IO # 749917
PROS 2022173574

All EDP, expenses etc should be charged against these coordinates. A question was presented on how to process the EDP/OR. **I recommend you speak with your unit/detachment admin on how to properly enter that information.** My suggestion would be for your shifts scheduled at your home unit be changed to reflect your shift status while here(ie. If you were on an 8 hour day shift at your home unit and you were working nights here, have your OSM changed to reflect your 8 hour shift

using your hotel departure time as your start for the 8 hrs, anything beyond that is OT until you get back to the hotel at which time you transition to OR. After your appropriate rest period your travel home would be on what would be your normally scheduled shift at your home unit.

RCMP Notes:

As requested at the briefings, all notes are to be scanned and shared with the WPS at the end of each shift. A box has been set out in the muster room (radio/assignment room) labelled **RCMP Notes**. The details of how to process notes, will states if you become involved in an arrest scenario have already been briefed.

Further Deployment to Ottawa:

The DEOC just sent out the list to the RMs deployed to Ottawa commencing Feb 17, 2022 until Feb 24, 2022. **If you were previously on that list and are now in Windsor, you will not be deploying to Ottawa on Feb 17, 2022.** If you received the list in error please let Ed or I know and we will ensure that is addressed via the DEOC

Your home units have been asked to identify additional deployable RMs for Ottawa as part of ongoing contingency planning. At this juncture I have no information confirming further deployments.

I wish to thank each of you for your flexibility, professionalism and commitment. Your support of our Windsor, OPP and CBSA partners has not gone un-noticed. In my discussions with the other commanders present, they are truly appreciative.

If you have any questions please reach out to myself or Ed Smith at any time.

Peter
